Passionate Software Engineer skilled in Java, Spring Boot, RESTful APIs, microservices, and OOP, focused on building secure, scalable, high-performance backend systems. Committed to delivering innovative and reliable software solutions that enhance digital experiences.

Education

Savitribai Phule Pune University , Pune	<i>Jul 2020 – May 2024</i>
B.E. in Computer Engineering	CGPA: 8.49/10
Saint Dnyaneshwar Mahavidhyalaya (SPPU) , Newasa, MH	<i>Aug 2018 – May 2020</i>
HSC (Science)	(64.46%)
Seventh-Day Adventist School , Newasa, MH	<i>Aug 2017 – May 2018</i>
SSC	(83.40%)

Skills

Languages Java, Python, JavaScript
IT Construct: DataStructure and Algorithms, OOPS, OS ,DBMS , Agile (Scrum/Kanban)
Development Tools: IntelliJ IDEA, Git, Jenkins, Postman, Docker, VS Code
Frameworks: Spring Boot, Hibernate, JUnit, RESTful APIs, Microservices Architecture, Angular/React(Basic)
Databases: SQL, MySQL, PostgreSQL

Professional Experience

Consultadd Inc. , Trainee Engineer	<i>May 2025 – Oct 2025</i>
– Developed REST APIs using Java, Spring Boot, and Hibernate to automate a finance client’s workflow, reducing manual spreadsheet operations. – Implemented backend business logic, service-layer components, API integrations, and microservice modules in an Agile environment.	

FUEL - Friends Union for Energising Lives , Java Intern	<i>June 2024 – Dec 2024</i>
– Developed Spring Boot-based backend APIs for a real estate project, improving data flow and system performance. – Applied Java, SQL, and OOP concepts in a live project, gaining hands-on experience in database management.	

Elite Software Pvt. Ltd. , Web Developer Intern	<i>Jan 2023 – Jun 2023</i>
– Developed dynamic web applications using Python and Django, creating RESTful APIs to enable efficient client-server communication – Built responsive front-end interfaces with HTML, CSS, and JavaScript, enhancing cross-device user experience	

Projects

AI Interview & Resume Mentor	<i>Sep 2025 – Nov 2025</i>
– Built a Java full stack app using Spring Boot, React, MySQL, and Gemini AI for mock interview generation. – Integrated voice-based interaction with Web Speech API for real-time interview simulation. – Developed a Resume Analyzer using Apache PDFBox and AI text analysis for feedback.	

Zaminwala - The Real Estate Listing Platform	<i>Mar 2025 – May 2025</i>
– Developed RESTful microservices using Java, Spring Boot, and JPA/Hibernate for listings and user management. – Designed MySQL schemas and implemented JWT authentication for scalable performance.	

AI Storyteller - A Story Generation App	<i>June 2025 – Aug 2025</i>
– Built an AI storytelling app using Python, Streamlit, and Google Gemini API to generate stories from images and genres. – Integrated text-to-speech (TTS) for real-time AI voice narration and interactive story playback.	

Extra-Curricular Activities

- Led teams as a Writer, Director and Actor for several plays performed for state level dramatics competitions
- Organized theater-related programs and workshops, engaging with students to foster creativity and artistic expression
